YOUR OFFICE SPACE / NEWCASTLE NSW

Office furniture buying pack

Planning & ordering checklist

01 / BEFORE ORDERING

12 checks for a complete order.

Use the checks with your team and supplier. The following pages turn your decisions into a product schedule, comparable quote scope and delivery record. Print or annotate in a PDF app.

- [ ] **01 Count people and settings**

  Separate confirmed workstations, meeting seats, storage and breakout needs from future options.

- [ ] **02 Map work activities**

  Record focused tasks, collaboration, visitors and shared settings before selecting products.

- [ ] **03 Check the measured layout**

  Check furniture in use, movement, services, doors and storage with your relevant adviser.

- [ ] **04 Audit what can be reused**

  Record condition, dimensions and relocation or adaptation costs for retained pieces.

- [ ] **05 Write the specifications**

  Confirm product codes, sizes, finishes, mechanisms, accessories and approved alternatives.

- [ ] **06 Review desks and seating together**

  Discuss user needs, adjustment features and assessment or demonstration options where available.

- [ ] **07 Compare complete quotes**

  Check product scope, quantities, freight, assembly, positioning and packaging removal.

- [ ] **08 Confirm exact availability**

  Ask about allocation, production, dispatch, delivery and what could change before ordering.

- [ ] **09 Verify building access**

  Confirm loading, lift and doorway dimensions, stairs and any booking requirements.

- [ ] **10 Coordinate installation**

  Agree readiness, access windows, delivery contacts and handling of occupied areas.

- [ ] **11 Check received goods**

  Reconcile products, quantities, finishes and condition; record missing or damaged items promptly.

- [ ] **12 Keep support records**

  Save instructions, product references, warranty terms and the contact responsible for follow-up.

Planning & ordering checklist

02 / PRODUCT SCHEDULE

Give every item a clear reference.

Match setting IDs to your floor plan. Record a separate line for each product or retained item. Copy this page for additional rooms. Have relevant dimensions and layout assumptions checked before ordering.

Site / suburb / floor / target date

Brief revision / person approving selections

Retained items / optional additions / information still required

Room / item ID	Qty	Size / finish / product code	New / retain / action

Include desks, seating, tables, storage, screens and accessories. Product images do not establish layout suitability. Ask relevant advisers about access, workstation and individual needs.

Planning & ordering checklist

03 / QUOTE COMPARISON

Compare what reaches the workplace.

Use the same product schedule revision for each proposal. Enter Included / Excluded / Allowance / Unconfirmed with a note or amount. Missing scope is not a saving.

Inclusion or assumption	Supplier A	Supplier B	Supplier C
Exact products / quantities			
Sizes / finishes / accessories			
Approved substitutions			
Product price / GST			
Freight / site delivery			
Assembly / placement			
Packaging / existing items			
Access / after-hours assumptions			
Stock / production / dispatch			
Delivery / installation dates			
Warranty / service / returns			
Total / validity / payment terms			

Clarifications requested / revised written quote / preferred option

Planning & ordering checklist

04 / DELIVERY & SUPPORT

Know what is ready and what is open.

Confirm arrangements with the supplier and building manager. An estimated dispatch date is not the same as a confirmed installation appointment.

Arrival contact / loading and lift booking / site readiness

Installation and placement scope / retained furniture / packaging removal

Order / item reference	Received / issue	Owner / next action

Documents saved / product care / warranty reference / support contact

Read the guide: yourofficespace.au/blog/office-furniture-newcastle

Planning prompts, not a quotation or ergonomic assessment. Confirm availability, suitability, delivery access and installation scope for the actual order. Construction-related work is a separate scope.
